Print specs

- Trim 3.5 × 2 in (US), bleed 0.125 in each side, safe zone 0.125 in inside trim; all text/logo checked inside safe zone. Hairline frames sit 0.167 in inside trim.
- Fully vector: no raster images in the PDFs; fonts embedded (TrueType subsets).
- Type: name 14 pt Playfair, tagline 8 pt Playfair Italic, "ZISEL JEWELRY" 6.5 pt Montserrat SemiBold tracked, **phone 10 pt** Montserrat SemiBold, location 7 pt Montserrat Medium, logo "JEWELRY" ≈ 8 pt.
- **Color:** converted to DeviceCMYK with Ghostscript's default CMYK profile (not a press-specific profile like GRACoL/SWOP). Brand navy #0d1f45 and gold #c99a3a (on navy) / #a7802d (on white). Flat inks: the on-screen metallic gold gradient was replaced with solid gold for print. For true metallic, ask the printer for gold foil on the gold elements. Ask the printer for a soft proof; navy coverage is heavy on A front, B and C back.
