Repo / project home: `/workspace/zisel-jewelry/`
Working scratch / send packs: `/workspace/zisel/`
Do not commit this inventory update until Jonathan asks.

Every editable file should keep a matching PDF beside it (repo rule). This file's PDF twin is `ASSETS.pdf`.

Client favorites (final picks, Oct 19)

Shulkin sent these two back to Jonathan on WhatsApp on **Mon Oct 19, ~6:38 PM PDT** as his favorites — **the versions he is sticking with**. Every other version stays in place.

Pick	Matched source file	Confidence / evidence
Poster — "Book a Private Showing", 3×2 grid	**Poster 1:** `/workspace/zisel-jewelry/invite/zisel-invite-poster.png` · `.jpg` · `.pdf` (editable `invite/print/poster.html`)	Very high: SSIM 0.999, pHash distance 0 vs the JPG; posters 2/3/4 ≤ 0.72
Video — 31 s trailer	**Star batch, Jazz Brunch:** `/workspace/zisel-jewelry/deliverables/videos/zisel-star-jazz-brunch.mp4` (same file: `/workspace/zisel/deliver-1018/zisel-star-jazz-brunch.mp4`)	Very high: audio cross-correlation 0.985 with Jazz Brunch (other songs ≤ 0.04); video SSIM 0.86 vs 0.73–0.74 for the marketing/original Jazz Brunch cuts; Star of David shown, no cross

WhatsApp copies + match notes: `zisel-jewelry-private/client-comms/favorites-1019/` (private repo).

Rules (client deliverables)

1. **No "Las Vegas"** on any client-facing asset (posters, invite, site, emails, cards, trailers). **Exception (Jonathan, Oct 19):** the print business cards carry the location line **"Las Vegas, Nevada"** (written out, no "NV", no street address).
2. **No website URL** on client assets sent to Shulkin (removed from photo business cards Oct 18 ~6:21 PM; posters / invite / trailers never had it).
3. **No category labels** on the trailer (RINGS / BRACELETS / etc. were dropped for the rev4 cut).
4. **Proper file extensions** on every deliverable (`.png`, `.jpg`, `.pdf`, `.mp4`, etc.).
5. **Poster 4** = stars-only / **no crosses** version for Shulkin's local contacts (cross tile `z080` replaced with poster-2 top-center `z010`; Stars of David `z076` / `z002` stay).
6. Religious pieces: keep **poster 3** (cross + Star of David) for general use; use **poster 4** when he needs a no-cross local share.

Known WhatsApp sends to Jonathan Shulkin (America/Los_Angeles)

When (PDT)	What went out
~11:30 AM Oct 18	Early pack from `/workspace/zisel/send-1019/`: posters 1–3 (pre–heart-fix / pre–Shulkin-18 revisions), invite card, trailer-a + trailer-b (older cuts). Confirmation screenshot: `send-1019/sent-confirmation.png`.
5:28 PM Oct 18	Latest **posters 1, 2, 3** + **jazz** + **calm** trailers (31 s each, hearts crop fix). No caption.
6:02 PM Oct 18	Three **photo business cards** that still had the website: square, story, 3.5×2. **Superseded** by the no-URL re-render.

When (PDT)	What went out
~6:28 PM Oct 18	**No-website** photo business cards (square, story, 3.5×2) + **poster 4** + **cafe-music trailer**. Silent trailer and Kevin-MacLeod music trials **not** in this send.
6:32 PM Oct 18	**Silent trailer** (`zisel-trailer-silent.mp4`, same 31 s cut, no audio). No caption.
~6:36 PM Oct 18	**Jazz Brunch**, **Lobby Time** and **Bossa Antigua** trailers, followed by a note naming each song (all Kevin MacLeod) and the license: CC BY 4.0, commercial use OK, credit line required when posted publicly (exact text in `/workspace/zisel/music-candidates/LICENSES.md`).
6:50 PM Oct 18	1 non-religious trailer, `zisel-trailer-jazz-brunch-nonreligious.mp4`, sent by SipChief.
~6:55 PM Oct 18	The 4 **marketing** trailers (`zisel-marketing-jazz-brunch`, `-lobby-time`, `-bossa-antigua`, `-silent`; non-religious renders), sent by Jonathan himself. Caption: "these are versions without any of the religious symbols just in case".
7:47 PM Oct 18	The 4 **Star batch** trailers (`zisel-star-jazz-brunch`, `-lobby-time`, `-bossa-antigua`, `-silent`; only the crosses removed). Caption: "Updated versions with only the crosses removed, so the Star of David pieces stay in. Same three songs plus a silent one." **Read.**

Print business cards, 3.5×2 in two-sided, rev 2 (Oct 19 ~8:30 PM): 3 concepts, not yet chosen or sent

Rev 2 changes from Jonathan: **navy on both sides**, **metallic gold shimmer** on all gold type, dividers and diamond edges (brand gradient from `invite/zisel.css`), and a **wide gold border band** like the poster (0.14 in inside trim, running through the full bleed) with a thin hairline inset. Front: logo only. Back: Jonathan Shulkin / ZISEL JEWELRY / Wholesale Diamond & Fine Jewelry / 725.254.6937 / Las Vegas, Nevada. No website, email, street address or title.

Concept	Front	Back
A · Gold Frame Classic (back rev 3b, Oct 19 ~9:45 PM)	Logo; band + hairline + second fine inner frame (unchanged)	Centered, styled like the trailer end card: Jonathan Shulkin / Book a Private Showing (champagne shimmer serif) / WHOLESALE DIAMOND & FINE JEWELRY (ivory caps) / gold rule / 725.254.6937 / Las Vegas, Nevada / *Viewing by appointment only* (ivory italic). ZISEL JEWELRY removed; block centered in inner frame; smallest line 6 pt. A-only preview: `/workspace/zisel/business-card-A-rev3.png`
B · Midnight	Logo; band + hairline	Left-aligned: gold name and phone, diamond accent at right
C · Diamond Divider	Larger logo; band + hairline, no inner frame	Centered: gold name, rule–diamond–rule divider, white phone

Folder	`/workspace/zisel-jewelry/deliverables/business-cards/` (README.md + README.pdf)
Print PDFs	`zisel-business-card-{A,B,C}_print-bleed_CMYK.pdf` (3.75×2.25 in, 0.125 in bleed, no marks) · `…_print-crop-marks_CMYK.pdf` (crop marks). 2 pages each: front, back. 100% vector, text

	outlined (no fonts), gold as native DeviceCMYK gradients, TrimBox/BleedBox set. RGB versions in `rgb/`.
Previews	`zisel-business-card-{A,B,C}_preview.png` (front + back at trim, 600 dpi from the CMYK PDF) · comparison `zisel-business-card-concepts.png` (copy: `/workspace/zisel/business-card-concepts.png`)
Editable	`src/concepts.py` (text, inks, gradient stops, band size, per-concept options) · `src/build.py` (renderer) · fonts in `src/fonts/`
Re-render	`cd deliverables/business-cards/src && python3 build.py` (reportlab + HarfBuzz outlines + shapely; previews via Ghostscript). README PDF: `python3 md2pdf.py ../README.md`
Print notes	Navy hand-set to C100 M70 Y5 K80; other inks via Ghostscript SWOP profile, so get a proof. Gold areas can go to **gold foil** if the printer offers it.

Packaging mockups (NEW Oct 20 ~4:45 PM): sample images, styled on business card A FRONT

- **Gift bag:** `deliverables/packaging/zisel-gift-bag-mockup.png` · `.pdf` : navy paper bag with gold rope handles; card-A front treatment on the face (metallic gold edge band, hairline + inner frame, exact Zisel logo).
- **Jewelry pouch:** `deliverables/packaging/zisel-jewelry-pouch-mockup.png` · `.pdf` : navy suede drawstring pouch with the gold frame and logo as foil print.
- **Store counter scene:** `deliverables/packaging/zisel-counter-bag-and-box-mockup.png` · `.pdf` : the navy Zisel bag next to a matching navy jewelry box on a marble boutique counter in warm light. The box has a gold-framed lid top and a lid front with a frame and the exact logo. The AI base photo's royal blue was regraded to brand navy. Re-render: `cd /tmp && python3 /workspace/zisel-jewelry/deliverables/packaging/src/make_counter_mockup.py`.
- **Flat bag design reference (approved design, Oct 20 ~4:55 PM):** `deliverables/packaging/zisel-gift-bag-flat.png` (1833×2333) · `.pdf` : a clean, straight-on front view of the gift bag on a light neutral background with a soft shadow. It shows the navy face, gold edge band, hairline + inner frame, gold rope handles with grommets and the exact Zisel logo. Fully programmatic, built from vector art (`src/art_gift-bag-flat.pdf`). Re-render: `cd /tmp && python3 /workspace/zisel-jewelry/deliverables/packaging/src/make_flat_bag.py`.
- **How it was made:** the base photos are AI-generated with no text (`src/base_*_blank.jpg`). The real vector face artwork (`src/art_*-face.pdf`, built from the card code) is composited on in perspective, so the lettering is never AI-drawn. Re-render: `cd /tmp && python3 /workspace/zisel-jewelry/deliverables/packaging/src/make_mockups.py`. No URL, email or tagline (the card front carries only the logo).

3. Trailers (1080×1920, ~31 s, H.264)

Current pipeline: `trailer/rev4/render_v4.py` (PIL frames → ffmpeg). Brand layers from `trailer/assets/` (built via `trailer/src/gen.py` + headless Chrome). Shot list includes poster tiles + religious pieces for the longer cut; **no category labels** on rev4. Music is muxed per variant.

Photos used (rev4 shot list): z083, z024, z051, z019sq, z063, z074sq, z037, z010, z068, z013sq, z001, z004sq, z052, z002, z011, z080, z075, z076.

Non-religious backup batch (made ~6:50 PM Oct 18, not sent)

Same rev4 design and end card (no website, no labels), 31.0 s, 1080×1920 H.264, faststart. 14 photos instead of 18, each shown longer (1.63 s step instead of 1.25 s). **Removed:** z080 (crosses), z075 and z076 (Star of David), and z074sq (hamsa pendants, left out to keep this version fully non-religious). Other photos checked: no crosses or stars. Glints are round glows, not cross-shaped.

Version	File	Music
Silent	`/workspace/zisel/deliver-1018/zisel-trailer-silent-nonreligious.mp4`	No audio
Jazz Brunch	`/workspace/zisel/deliver-1018/zisel-trailer-jazz-brunch-nonreligious.mp4`	Kevin MacLeod, CC BY 4.0 (credit required)

Bossa Antigua	`/workspace/zisel/deliver-1018/zisel-trailer-bossa-antigua-nonreligious.mp4`	Kevin MacLeod, CC BY 4.0 (credit required)

Editable source: `trailer/rev4/render_v4_nonreligious.py <out.mp4>` (silent render), then mux the MP3s with ffmpeg: first 31 s, 1.5 s fade out, loudnorm I=-14, AAC 192k, `+faststart`. Contact sheet: `trailer/rev4/zisel-trailer-nonreligious-contact-sheet.jpg`.

Star batch (made ~7:30 PM Oct 18, sent 7:47 PM, read)

Same rev4 style, photo order and end card as the main trailers, 31.0 s, 1080×1920 H.264, faststart. 17 photos instead of 18. **Removed only z080** (a tray of cross pendants). The hamsa pendants (z074sq) and the Star of David photos (z075 Star of David + chai, z076 Star of David pendants) stay in. I checked all 18 photos and z080 is the only one with crosses. The remaining slides fill the gap by each staying up a little longer (1.33 s step instead of 1.25 s), so the ending timing is the same. Glints are round glows, not cross-shaped.

Version	File	Music
Silent	`deliverables/videos/zisel-star-silent.mp4`	No audio

Bossa Antigua	`deliverables/videos/zisel-star-bossa-antigua.mp4`	Kevin MacLeod, CC BY 4.0 (credit required)

Update ~7:40 PM: "Wholesale Diamond & Fine Jewelry" is now enlarged to about 86–87% of the frame width in all three places it appears: the intro hook, the tagline under the photos and the end card. Same fonts, colors and layout. The assets are `trailer/rev4/nocross_assets/{hook,tagline,end}_big.png`, built by `gen_big.py`. Close-up: `trailer/rev4/zisel-trailer-nocross-tagline-closeup.png`.

Update ~7:45 PM (Jonathan's feedback): on the intro card only, "WHOLESALE DIAMOND / & FINE JEWELRY" is now a smaller secondary line under "Brilliance, by appointment." Its cap height is about 65% of the "B" in Brilliance (47 px font), it is centered, and there is more space below Brilliance. The under-photo italic line and the end card keep the enlarged size. Intro close-up: `trailer/rev4/zisel-trailer-star-intro-closeup.png`.

Copies are also in `/workspace/zisel/deliver-1018/`. **Editable source:** `trailer/rev4/render_v4_nocross.py <out.mp4>` (silent render), then mux the MP3s with ffmpeg: first 31 s, 1.5 s fade out, loudnorm I=-14, AAC 192k, `+faststart`. SUPERSEDED trailer cuts

Rev	File	Notes
Rev1/2	`/workspace/zisel-jewelry/trailer/zisel-trailer.mp4`	Early cut; also mirrored as `send-1019/trailer-a.mp4` / `trailer-b.mp4`
Rev3	`/workspace/zisel-jewelry/trailer/rev3/zisel-trailer-v3.mp4`	Pre–hearts-fix / older music

Re-render rev4: from `trailer/rev4/`, run `python3 render_v4.py` (writes frames → ffmpeg; music selected via cafe/calm/jazz logs or remux). Edit `music_*.py` then regenerate wav before remux.

9. How to re-render (cheat sheet)

Posters / photo cards / logos (HTML → PNG/PDF)
1. Serve `/workspace/zisel-jewelry/` (or `invite/print/` with collection reachable).
2. Playwright + `/usr/bin/google-chrome`: open the HTML, viewport = design size, `page.screenshot` → PNG; `page.pdf` for print PDF.
3. Pattern script: `/workspace/zisel/render.py` (extend jobs list for poster-2/3/4 and photo cards).
4. Always write matching PDF next to PNG/MD.

Trailers
1. Brand layers: `cd trailer/src && python3 gen.py` → `trailer/assets/`.
2. Music: `python3 music_cafe.py` (or calm / jazz) in `trailer/rev4/`.
3. Video: `python3 render_v4.py` → `zisel-trailer-*.mp4`.
4. Silent: remux without audio track into `deliver-1018/`.

Invoice
- Template: `python3 /workspace/sipstudies-invoice/build.py`
- Draft: `python3 /workspace/zisel-invoice/draft-2026-10-18/inv/build_draft.py`

Marketing trailers (non-religious, renamed) — sent Oct 18 ~6:55 PM PT

- deliverables/videos/zisel-marketing-jazz-brunch.mp4, -lobby-time.mp4, -bossa-antigua.mp4, -silent.mp4 (copies of the *-nonreligious renders; no crosses, Stars of David or hamsa).
- Sent to Shulkin by Jonathan himself on WhatsApp, with the caption "these are versions without any of the religious symbols just in case". One earlier copy (jazz-brunch-nonreligious) also went through at 6:50 PM.
- Music credit (CC BY 4.0) is still required when posted publicly.
